a few things to take care of

Keep your text above 7 pt.

Convert text to outlines.

Prefer vector graphics over raster graphics

Use CMYK combiations for full colour printing and not PANTONE colours

Please embed all external files (images, etc.) in the document itself

Give at leat a 5mm gap between edges and important elements of your design

Everyone makes mistakes, so don't worry if something doesn't work out, we will review your design thoroughly and call you for a final confirmation before printing them.
